Law and Ethics, and UNESCO Chair in Bioethics,
University of Haifa, Israel

Practical Bioethics: What is it about?

In this seminar for students and faculty, the focus is put on how to bring ethical issues, often of interdisciplinary dimension, into the classroom successfully. Questions about the broader dimension of ethics as part of healthcare education are discussed with the audience.

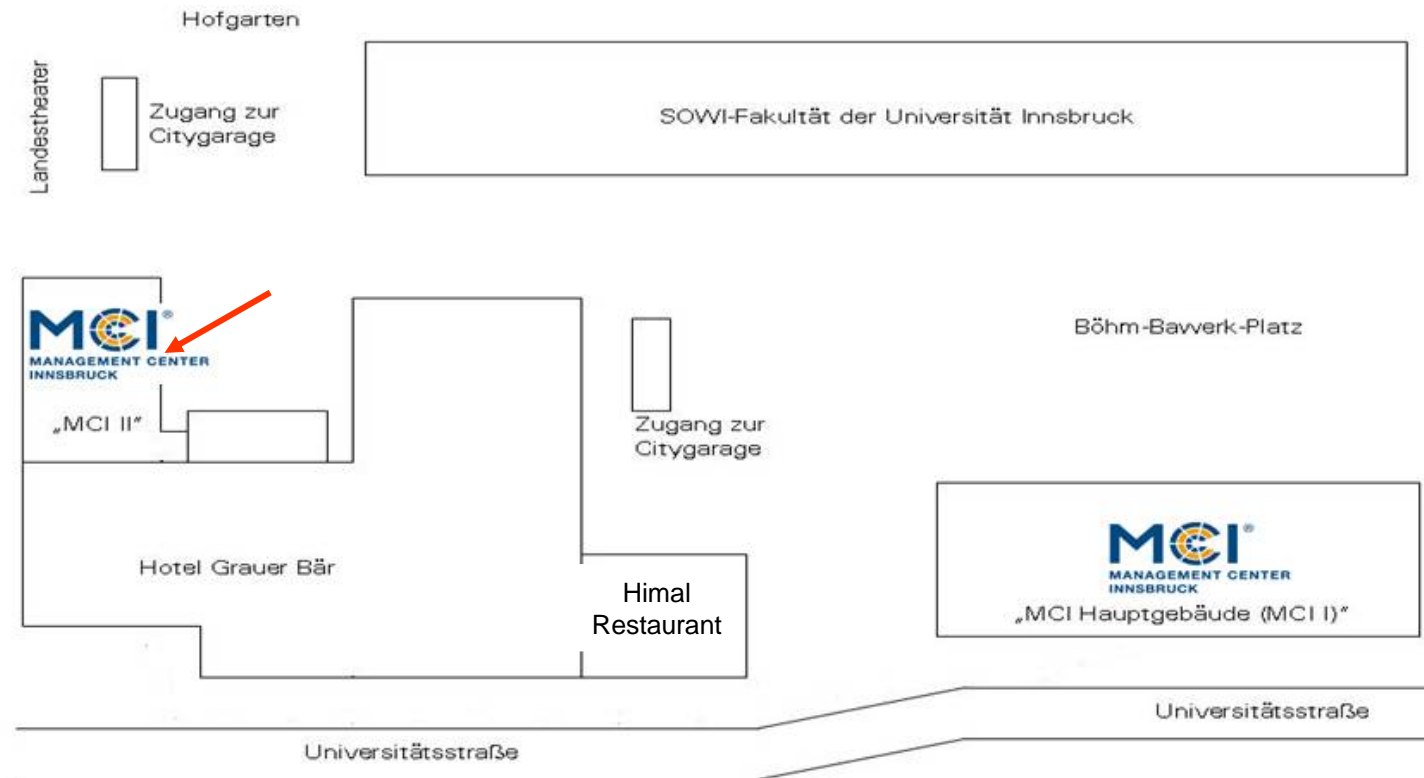

Prof. Carmi is a leading authority in UNESCO's ethics educational programme. He is Secretary-General of IOJT, the International Organization for Judicial Training and was president of the World Association for Medical Law (1991-2010).
