MSCA Doctoral Networks and Post-Doctoral Fellowships still open for submission

In May 2022 the EU Commission opened the recent calls for Marie Skłodowska Curie Networks and fellowships. While Doctoral Networks require a consortium of at least three partners from at least three different countries - optimally interdisciplinary and intersectional composed - the Post-Doctoral fellowships can be applied for by a single organisation in cooperation with the future fellow. For our university this instrument could be ideal for the invitation of an additional research group member e.g. coming from a partner university where a cooperation already is in place. The fellowship can last for two years and is entirely financed by Horizon Europe. In comparison to other EU funding applications the proposal is rather simple.

The deadlines for the two calls are:

Individual Fellowships – 14 September 2022

Doctoral Networks – 15 November 2022

Detailed informations can be found at the funding tenders portal of the EU Commission:
