Pilot programme 1000 Ideas Programme

It is often difficult for researchers to take the first step when it comes to new, bold or particularly original research ideas that go beyond the general understanding of science and scholarship. This is where the FWF comes in and thus closes a gap in its funding portfolio with this new programme. The programme will fund projects dealing with forward-looking topics with a high degree of scholarly and transformative potential.

Deadline: First call is planned for Autumn 2019.

RESI – Meetup for researchers with entrepreneurial spirit

“Are you a PhD candidate or Postdoc and interested in career opportunities besides research? Then join us at our next RESI-Meeting hosted by the Förderkreis 1669.

This time we are pleased to welcome Dr. Thomas Monz from Quantum Optics and Spectroscopy group who will talk about his career and his journey from researcher to entrepreneur.

After the keynote we will discuss and plan the program for the next year – for this reason we prepared some ideas in order to assess your needs, your challenges and boosters as well as your mindset.

Feel free to bring interested friends for inspiration and discussion!”
