Two new calls from the European Research Council (ERC)

ERC Synergy Grants (<https://erc.europa.eu/funding/synergy-grants>) are intended for groups of two to four Principal Investigators (PI) and their teams who bring together complementary knowledge and resources in new ways to address ambitious research questions. The aim is to enable transformative research with the potential of becoming a benchmark on a global scale. One of the PIs (with exception of the Corresponding PI) can be hosted by an institution outside of the EU or Associated Countries.

The **ERC Synergy Grant Call 2022 (SyG)** (https://www.ffg.at/europa/heu/erc_syg/calls) will close on 10 November 2021. The guidance document “Information for Applicants to the Synergy Grant Call” is available in the [Funding & tender opportunities Portal](#), while the proposal templates in rtf-format should be released soon, once the submission tool is open.

You will be supported in the preparation of project proposals by

Maria Pérez (national programmes, FWF etc.),
