Correction Deadline!!

OeNB Anniversary Fund

Target group: all researchers

Deadline: 20.07.2016 (12:00)

Funding for Anniversary Fund projects is generally limited to a maximum of EUR 110,000 per project. In the case of focus area projects, funding is limited to a maximum of EUR 200,000 per project. The minimum funding amount is EUR 10,000. The maximum project duration in all cases is four years.

focus area in Medical Sciences in 2016:

Organ replacement and transplantation

Workshop

Knowledge Transfer Center WEST (Wissenstransferzentrum):

Workshop: Good Laboratory Practice (GLP)

Is your research activity well thought, well planned, well documented?

What can we learn from Industry's way of thinking, working, modelling or implementing things?

Good Laboratory practice - GLP - adds value to your research!

Let's learn more about it!

This seminar will introduce the theory, practice and importance of GLP and describe how to handle documentation of scientific work to integrate Industry Standards into Academic Research.

Target audience: PhD Students, Postdocs, Technicians, young researchers

Date: 25.05.2016

Time: 14:00 - 16:30

Location: CCB, Innrain 80-82, Innsbruck, Room M.01.470

Further Information [here](#)

Please note: Limited number of participants! First come - first serve!

Registration and cost

This event is free of charge. The registration deadline is 23rd May 2016.

Patent Day MUI – 30.05.2016

We present the "Patent Day MUI" organized by CAST in cooperation with MUI and WTZ.

You will receive basic information on Intellectual Property (IP) rights in general and a practical guide how to deal with making technical inventions and patenting them in the scientist's professional life.

On top you will get an overview on the patents search (exercises).

What: Patent Day MUI

When: Monday, 30th of May 2016, 9 – 12.30 am

Where: Medizinische Universität Innsbruck, Lernzentrum Medizin, Schöpfstrasse 24, 1. UG, room U108

Topics covered will include:

Intellectual property rights with focus on patents – Introduction

Intellectual property rights | Requirements for a patent application How to read patents correctly: cover page, description, claims, research work Patents as a source of information (State of the art | Who is my competitor? | Do I infringe an intellectual property right?)

Patent prosecution:

National, European and International patent application process

Patents in Life Science

Patents search - Overview

Search options in the world wide web | Introduction to esp@cenet | Patents search strategy | Exercises

The Speakers: Dr. Erwin Gutleiderer, Mag. Christian Weissbacher

http://www.cast-tyrol.com/fileadmin/PDFs/Patent_Day_IMED_30_May_2016_English_.pdf

For **registrations** please contact Ms. Monique Sommer **before May 26, 2016:**

sommer@cast-tyrol.com

Participation: free of charge | minimum number of participants: 6, maximum: 20.

START/ERC-Coaching-Workshop in Vienna (in English)

Begin: 06.07.2016, 09:00

End: 06.07.2016, 17:00

Admission: 75,00 EUR

Registration: Email: [workshops\(at\)fwf.ac.at](mailto:workshops(at)fwf.ac.at)

Registration Deadline: 2016-06-05 23:59

Event Language: English

FFG Webinars - Horizon 2020 Calls 2017, 10. - 22. June 2016

Target group: all researchers

Webinars:

- 10. June, 10:00 - 11:00: 2nd Call IKT for 5G, Media & Content, ICT Anything Everywhere
- 13. June, 10:00 - 11:30: Calls 2017 Health: From clinical research, in silico systems to e-Health
- 15. June, 14:00 - 15:30: KMU-Instrument and further funding alternatives for KMU
- 16. June, 13:30 - 15:00: Calls 2017 Bio-economy
- 21. June, 10:00 - 11:30: Calls 2017 Climate change, Environment, Resource efficiency and Resources
- 22. June, 10:00 - 11:00: Calls 2017: From energy- and transport sector to manufacturing engineering - relevant technologies for research & industry

Reminder

Interreg V Italia – Austria

Target group: all researchers

Deadline: 06.06.2016

The Interreg V-A Italy-Austria programme is a cross border programme under the European Territorial Cooperation Goal for the programming period 2014-2020, aiming to support a balanced and sustainable development and a harmonious integration of the border region between Italy and Austria. The programme is funded by the European Regional Development Fund (ERDF) as well as national public contributions for a total of 98 million euro.

With these funds, the programme promotes Italian-Austrian cooperation projects in the fields of research and innovation, nature and culture, institutional capacity and community led local development.

Call for guidelines for all breast cancer care processes

Target group: all researchers

Deadline: 05.06.2016 (midnight CET)

The European Commission Initiative on Breast Cancer (ECIBC) is pleased to announce the launch of a call for guidelines for all breast cancer care processes, including the non-disease specific but relevant ones, e.g. palliative care.

Within the ECIBC project a [Guidelines Platform](#) will contain guidelines and recommendations for all breast cancer care processes to support with evidence the selection of requirements and indicators to be included in the [European Quality Assurance scheme for breast cancer services](#).

The search for evidence-based guidelines for breast cancer services has been performed by an external service provider from available medical and guideline databases. You will find more detailed information and the online submission button at:

<http://ecibc.jrc.ec.europa.eu/-/call-for-guidelines-for-all-processes-of-breast-cancer-care>

Programme Research Studios Austria, 5th Call

Target group: all researchers

Begin: 18.04.2016

1st Deadline for short proposals: 29.07.2016

2nd Deadline for full proposals: 30.09.2016

The Research Studios Austria (RSA) programme promotes the application and implementation of research findings from the field of basic research into the entrepreneurial research in Austria .

The 5th call of research studios Austria focuses on the following research themes:

- Information and communication technology for Industry 4.0
- Energy and Environmental engineering
- Biotechnology

Applications can be received from research institutions (e. g. universities) but also from newly created small and medium-sized enterprises. Other types of enterprises can act as cooperation partners.

Information Events are planned in Graz (tbd), Innsbruck (tbd), Linz (tbd) and Vienna (23.05.2016 in the FFG).

The Lush Prize 2016- Animal Free Testing

Target group: all researchers

Begin 25.04.2016

Deadline: 25.06.2016

The Lush Prize is a major initiative aiming to bring forward the day when safety testing takes place without the use of animals. It focuses pressure on toxicity testing for consumer products and ingredients, in a way which complements the many projects already addressing the use of animals in medical testing.

The prize normally consists of a £250,000 annual fund – the biggest prize in the non-animal testing sector.

In most years, several prizes of £50,000 will reward the most effective projects and individuals who have been working towards the goal of replacing animals in product or ingredient safety testing across five strategic areas:

- [Lobbying](#)
- [Public Awareness](#)
- [Science](#)
- [Training](#)
- [Young Researcher Awards](#)
